

POSTDOCTORAL RESEARCH SCHOLAR

Job Description

Join the Earley Lab at Arizona State University, exploring molecular qubits and quantum sensing! This postdoctoral position focuses on developing and applying spectroscopic techniques to measure and interact with qubits. Additionally, you'll mentor undergraduate and graduate students while helping to shape new research directions for the lab. We're seeking highly motivated individuals with a strong interest in electron-spin chemistry.

Yearly compensation: \$55,000 - \$60,000 + benefits

Expected start date: April/May 2025

Qualifications

- Applicants must have a Ph.D. in Chemistry, Physics, or a closely related discipline by the start date.
- Candidates with experience in optical spectroscopy, EPR, magnetic resonance, and/or spin chemistry are greatly encouraged to apply; however, this experience is not required.
- Non-U.S. citizens should be eligible for a J-1 Scholar visa for the duration of their postdoctoral position.

To Apply

Email the following material to Justin.Earley@ASU.edu

1. 1-Page Cover Letter
2. Curriculum vitae
3. Contact information for three (3) references
